

The image shows a classic Windows 3.11 desktop environment. At the top is a blue title bar with the text 'MS 3 setup' and standard window control buttons (minimize, maximize, close). Below the title bar is a grey taskbar containing a dropdown menu set to 'Auto' and several application icons. The main area of the window is a black command prompt window with white text. The text shows a series of commands being entered and executed in a DOS-style shell. The commands include removing a directory, setting environment variables for installation, changing the current directory, setting the PATH, unmounting and then mounting the C: drive, and finally running the 'apcupsd /install' command. The session ends with a 'pause' command and the prompt 'Press any key to continue . . .', followed by a single dash character.

```
C:\apcupsd\bin>rem
C:\apcupsd\bin>rem perform installation of apcupsd on Win32 systems
C:\apcupsd\bin>rem
C:\apcupsd\bin>c:
C:\apcupsd\bin>cd c:\apcupsd\bin
C:\apcupsd\bin>path=c:\apcupsd\bin
C:\apcupsd\bin>umount --remove-all-mounts
C:\apcupsd\bin>mount -f c:\ /
C:\apcupsd\bin>apcupsd /install
C:\apcupsd\bin>pause
Press any key to continue . . .
